

JUSTIN RAINE M. JUSTIZA

Sapphire Tower, Lancris Residences, Parañaque City, Manila

09602720767 | justinrainemjustiza@gmail.com

Graduating student pursuing a Bachelor of Science in Information Technology, specializing in Mobile and Web Applications, seeking an IT internship to apply knowledge and skills in software development, IT support, and basic networking. Has hands-on experience with React, Node.js, MongoDB, and Cisco networking fundamentals through academic projects and capstone development. Eager to contribute technical skills, support IT operations, and gain practical industry experience while continuously improving professional competencies.

EDUCATION

NATIONAL UNIVERSITY MOA, Pasay City | 2023 – PRESENT

Bachelor of Science in Information Technology specializing in Mobile and Web Application

- 2 nd Honor Dean's Lister (1st year , 2nd term)
- 1st Honor Dean's Lister (1st year, 3rd term)
- 2nd Honor Dean's Lister (2nd year, 1st term & 3rd term)

ARANDIA COLLEGE, Parañaque City | 2021 - 2023

Science, Technology, Engineering, and Mathematics (STEM) Strand

- Grade 12 with Honors

TECHNICAL SKILLS

- Programming: React, Python, JavaScript, Java , C#, Dart/Flutter
- Networking: Cisco IOS Command-Line Interface (CLI), IPv4 Addressing and Subnetting, Ethernet LAN Switching, Basic VLAN and Trunk Setup, Router and Switch Configuration, Network Interface Management
- Tools & Platforms: Cisco Packet Tracer, Git, GitHub, Visual Studio Code
- Web Development & Frameworks: React, Next.js, Node.js/Express, HTML, CSS
- Databases: MySQL, MongoDB

PROJECTS / CAPSTONE

SagipBayan: Digital and Virtual Twin-Enabled Disaster Information and Management System
FOR NUEVA ECIJA, JAEN MDRRMO
React, Node.js, Express, MongoDB, JavaScript, CSS

- Developed the main disaster-management platform: responsive public portal, weather, evacuation, hazard mapping, advisories, contacts, relief requests, donations, inventory, announcements, guidelines, analytics, notifications, and role-based dashboards.
- Built secure workflows and access controls for Admin, DRRMO, Accountant, and Barangay users, including relief approval, release, receipt confirmation, donation validation, inventory management, account tools, and role-specific user manuals.
- Designed mobile-responsive interfaces, navigation, public operations summaries, and backend APIs using React, Node.js/Express, MongoDB, and REST APIs; integrated project analytics and real-time operational data views.
- Developed AI-assisted analytics for relief operations, inventory, donations, evacuations, and incident data using the Google Gemini API, with AWS Bedrock and rule-based insights as fallbacks.
- Performed User Acceptance Testing (UAT) with target users to evaluate system usability and ensure alignment with user requirements.

SEMINARS ANTTENDED

- 16 th PALSCON National Conference | 2026
